

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Carnegie Spin-Off - class A - SEK

ISIN: SE0002098442

Management Company: Carnegie Fonder AB

Objectives and investment policy

The fund is an actively managed equity fund with a Swedish thematic investment policy.

The fund may invest its assets in transferable securities, money market instruments, derivatives, fund units and accounts with credit institutions.

The objective of the fund is to generate a return in excess of the value growth of the Swedish stock market over a period of 5 years.

The Swedish thematic investment policy means that the fund invests at least 80% of its capital in companies that are domiciled in Sweden or companies listed on a Swedish marketplace or companies whose shares are traded on another market as long as the company's main business is located in Sweden.

The fund is focused on investments in companies that have been, will be or are expected to be subject to a spin-off, either as a spun-off company or as a company conducting a spin-off. The fund may invest in derivatives in order to improve the efficiency of the fund management and may be made in derivatives with underlying assets referred to in Chapter 5, Section 12 of

the Swedish Investment Funds Act.

The fund is actively managed with reference to a benchmark. While the fund compares its performance against the SIXPRX, it does not try to replicate this benchmark and freely selects the securities that it invests in. The deviation with this benchmark can be significant.

The currency of the unit class is SEK.

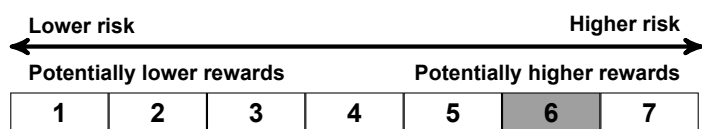

The fund is traded daily. Deposits into and withdrawals from the fund can normally be made on any weekday.

These units are capitalisation units. Income and capital gains are reinvested. The unit class pays no dividends.

Recommendation

This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

What does this synthetic risk and reward indicator mean?

- The units of class A - SEK are classified in category 6 because the value of the unit may be subject to high variations and consequently the risk of loss and the opportunity of gain may be high.
- The risk category for this unit class was calculated using historical data. The risk category may not be a reliable indicator of the unit class's future risk profile. The risk category shown is not guaranteed and may change over time.
- The seven-category scale is complex, for example 2 is not twice as risky as 1. The gap between 1 and 2 might not be the same as the gap between 5 and 6. A category 1 fund is not a risk-free investment

- the risk of losing your money is small, but the chance of making gains is also limited.

Which materially relevant risks are not adequately captured by the synthetic risk and reward indicator?

- Counterparty risk: the risk that a counterpart does not fulfill its obligations to the fund (e.g. not paying an agreed amount or not delivering securities as agreed).
- Liquidity risk: low liquidity might result in that it would be difficult or impossible to buy or sell an investment instrument in a timely manner and that the price could be lower or higher than expected.
- Operational risk: the risk of loss resulting from e.g. system breakdowns, human errors or from external events.

How can I get more information about the risks of the fund?

Additional information concerning the risks of investment is indicated in the corresponding sections of the prospectus of the fund.

Charges

The charges you pay are used to cover the running costs of the fund, including the costs of marketing and distribution of units. These charges reduce the potential increase in value of an investment in this fund.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charge	1.02%
----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	0.00%
-----------------	-------

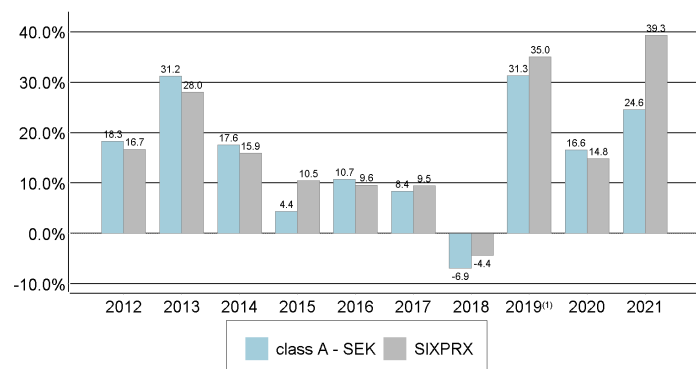

The ongoing charges relate to the annual charges; they were calculated on 31.12.2021. The ongoing charges may vary from year to year. The figure of the ongoing charges includes the costs of running the fund (administration), including the costs of marketing and distribution. The figure excludes securities transactions charges and performance fees.

The performance fee may amount to a maximum of 20% of the daily return that exceeds the fund's return threshold. The performance fee is calculated daily after deduction of the fixed charges. If the value growth of the unit class is below the return threshold, no performance fee will be charged until the previous relative under-performance has been offset. The total annual fixed and performance fees may amount to a maximum of 3% of the value of the unit class from 2020. The performance fee also falls out in the event the fund has over-performed the reference benchmark but has a negative performance.

For further information concerning charges, please consult the fund's prospectus.

Additional information concerning the performance fee is also available in the prospectus.

Past performance

(1) Change of the investment policy as at 21.10.2019. The result during this period has been achieved under conditions that no longer apply, since the fund's objectives and investment policy have changed.

All charges and fees, except for the entry and exit charges, were taken into account.

The past performance is calculated in SEK.

Past performance is not a reliable indicator of future results.

This fund was launched in 2007 and the unit class in 2007.

The fund does not aim to track the composition of its benchmark index.

Practical information

Depository

Skandinaviska Enskilda Banken AB (publ)
