

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Carnegie Multi - class A - SEK

ISIN: SE0011843705

Management Company: Carnegie Fonder AB

Objectives and investment policy

The fund is a fund of funds that aims to create a positive return over a period of about seven years with a lower volatility than global stock market, through investments in equity funds, fixed income funds and funds with alternative exposure, as well as other financial instruments.

Alternative exposure means exposure, through funds or other permitted asset types, to elements of commodities, real estate or exposures other than equities or interest rates, intended to give the fund diversifying properties.

The fund has a global focus, but with significant Nordic elements.

Below are the guidelines for the fund's asset allocation (depending on market conditions):

1. Between 10% and 60% of the assets are invested in equity funds.
2. Between 10% and 80% of the assets are invested in fixed income funds.
3. Between 0% and 60% of the assets are invested in balanced funds or alternative funds.

The fund may invest in derivatives. Derivatives may be used to improve management efficiency and thereby increase the return and create leverage.

The fund may invest in OTC derivatives. The fund may use currency derivatives to hedge its holdings in whole or in part. The fund may enter into securities loan agreements.

The fund is actively managed without reference to a benchmark.

The currency of the unit class is SEK.

The fund is traded daily. Deposits into and withdrawals from the fund can normally be made on any weekday.

These units are capitalisation units. Income and capital gains are reinvested. The unit class pays no dividends.

Recommendation

This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

What does this synthetic risk and reward indicator mean?

- The units of class A - SEK are classified in category 4 because the value of the unit may be subject to medium variations and consequently the risk of loss and the opportunity of gain may be moderate.
- The risk category for this unit class was calculated using simulated and historical data. The risk category may not be a reliable indicator of the unit class's future risk profile. The risk category shown is not guaranteed and may change over time.
- The seven-category scale is complex, for example 2 is not twice as risky as 1. The gap between 1 and 2 might not be the same as the gap between 5 and 6. A category 1 fund is not a risk-free investment

- the risk of losing your money is small, but the chance of making gains is also limited.

Which materially relevant risks are not adequately captured by the synthetic risk and reward indicator?

- Counterparty risk: the risk that a counterpart does not fulfill its obligations to the fund (e.g. not paying an agreed amount or not delivering securities as agreed).
- Liquidity risk: low liquidity might result in that it would be difficult or impossible to buy or sell an investment instrument in a timely manner and that the price could be lower or higher than expected.
- Operational risk: the risk of loss resulting from e.g. system breakdowns, human errors or from external events.

How can I get more information about the risks of the fund?

Additional information concerning the risks of investment is indicated in the corresponding sections of the prospectus of the fund.

Charges

The charges you pay are used to cover the running costs of the fund, including the costs of marketing and distribution of units. These charges reduce the potential increase in value of an investment in this fund.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charge	1.60%
----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

The ongoing charges relate to the annual charges; they were calculated on 31.12.2021. The ongoing charges may vary from year to year. The figure of the ongoing charges includes the costs of running the fund (administration), including the costs of marketing and distribution. The figure excludes securities transactions charges.

When the fund invests in another fund or UCITS managed by Carnegie Fonder, the fund is compensated for the fixed management fee that it pays for the underlying fund. If any performance fee is deducted from the underlying fund or UCITS this is also repaid to the fund.

When the fund invests in funds managed by a fund company or UCITS other than Carnegie Fonder, the fixed management fee in the underlying fund or UCITS may not exceed 3% after taking into account any part of the management fee reimbursed to the fund. The performance-based management fee in the underlying fund or UCITS may not exceed 30% of the excess return in relation to the benchmark parameter of the fund or UCITS.

For further information concerning charges, please consult the fund's prospectus.

Past performance

All charges and fees, except for the entry and exit charges, were taken into account.

The past performance is calculated in SEK.

Past performance is not a reliable indicator of future results.

This fund was launched in 2019 and the unit class in 2019.
