

FN:S HÅLLBARHETSMÅL & EU:S TAXONOMIMÅL

Carnegie Fonder investerar i bolag vars aktiviteter erbjuder en lösning på hållbarhetsmålen (SDG) och dess delmål i FN:s agenda 2030. Enligt fondbolagets fördelning nedan bidrar dessa investeringar även till målen i EU:s taxonomi.

MILJÖ ELLER SOCIAL	EU:S TAXONOMIMÅL	BIDRAGANDE SDG TARGET
MILJÖ	1. Climate change mitigation	7.2: Increase substantially the share of renewable energy in the global energy mix
		7.3: Double the global rate of improvement in energy efficiency
		11.2: Provide access to safe, affordable, accessible and sustainable transport systems for all, improving road safety, notably by expanding public transport
	2. Climate change adaptation	2.4: By 2030, ensure sustainable food production systems and implement resilient agricultural practices that increase productivity and production, that help maintain ecosystems, that strengthen capacity for adaptation to climate change, extreme weather, drought, flooding and other disasters and that progressively improve land and soil quality.
		9.4: Upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes
	3. The sustainable use and protection of water and marine resources	6.1: By 2030, achieve universal and equitable access to safe and affordable drinking water for all
6.3: By 2030, improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally		
4. The transition to a circular economy	12.5: By 2030, substantially reduce waste generation through prevention, reduction, recycling and reuse	
5. Pollution prevention and control	3.9: By 2030, substantially reduce the number of deaths and illnesses from hazardous chemicals and air, water and soil pollution and contamination	
	11.6: Reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management	
6. The protection and restoration of biodiversity and ecosystems	12.3: By 2030, halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains, including post-harvest losses	
	12.2: By 2030, achieve the sustainable management and efficient use of natural resources	
	12.4: By 2020, achieve the environmentally sound management of chemicals and all wastes throughout their life cycle, in accordance with agreed international frameworks, and significantly reduce their release to air, water and soil in order to minimize their adverse impacts on human health and the environment	
	14.1: Prevent and significantly reduce marine pollution of all kinds, in particular from land-based activities, including marine debris and nutrient pollution	

	<p>14.2: Sustainably manage and protect marine and coastal ecosystems to avoid significant adverse impacts, including by strengthening their resilience, and take action for their restoration in order to achieve healthy and productive oceans</p>
	<p>15.2: By 2020, promote the implementation of sustainable management of all types of forests, halt deforestation, restore degraded forests and substantially increase afforestation and reforestation globally</p>
SOCIAL	<p>1.4: By 2030, ensure that all men and women, in particular the poor and the vulnerable, have equal rights to economic resources, as well as access to basic services, ownership and control over land and other forms of property, inheritance, natural resources, appropriate new technology and financial services, including microfinance</p>
	<p>3.3: End the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, water-borne diseases and other communicable diseases</p>
	<p>3.4: By 2030, reduce by one third premature mortality from non-communicable diseases through prevention and treatment and promote mental health and well-being</p>
	<p>3.6: By 2020, halve the number of global deaths and injuries from road traffic accidents</p>
	<p>3.8: Achieve universal health coverage, access to quality essential health-care services and access to safe, effective, quality and affordable essential medicines and vaccines for all</p>
	<p>4.3: By 2030, ensure equal access for all women and men to affordable and quality technical, vocational and tertiary education, including university</p>
	<p>4.a: Build and upgrade education facilities that are child, disability and gender sensitive and provide safe, non-violent, inclusive and effective learning environments for all</p>
	<p>6.2: By 2030, achieve access to adequate and equitable sanitation and hygiene for all and end open defecation, paying special attention to the needs of women and girls and those in vulnerable situations</p>
	<p>9.1: Develop quality, reliable, sustainable and resilient infrastructure, including regional and trans-border infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all</p>
	<p>9.c: Significantly increase access to information and communications technology and strive to provide universal and affordable access to the Internet in least developed countries by 2020</p>
	<p>11.1: Ensure access for all to adequate, safe and affordable housing and basic services and upgrade slums</p>
