### WHAT IS THIS PRODUCT?

#### Type

Investment Company (SICAV), Luxembourg

#### Term

This sub-fund has no maturity date. However, the board of directors may decide to close the sub-fund under certain circumstances.

#### Objectives

The sub-fund aims to generate a long-term capital growth by primarily investing in a diversified portfolio of interest bearing instruments (fixed income) of companies whose products or services contribute to attaining one or more of the 17 UN Sustainable Development Goals ('SDGs') mainly composed of High Yield Bonds and Floating Rate Note instruments of Nordic Corporate Bonds.

In order to achieve its objectives, the sub-fund shall invest its assets in fixed income securities, convertible bonds, fixed income related instruments, preferred shares and Payment-in-Kind (PIK) bonds of corporates having a higher credit risk and issued predominantly by companies that are domiciled or operating in the Nordic Markets (i.e. Sweden, Denmark, Norway, Finland and Iceland).

The sub-fund may invest up to 50% of its assets in listed instruments that are quoted on other regulated markets outside EU. The sub-fund may invest in Investment Grade Income instruments. The sub-fund may also invest in shares and similar instruments and/or holds company shares as a result of transactions involving securities or the conversion of convertible bonds.

The sub-fund may also invest up to 20% of its assets in Contingent Convertible Bonds (Coco's) and up to 10% of its assets in Asset-Backed Securities and Mortgage-Backed Securities (ABS' or MBS').

The sub-fund may use financial derivatives instruments (i.e. FX Spot, FX Forwards or Basis Swaps) to hedge against unfavourable Foreign Exchange, Interest Rate and Credit risks. From time to time, the sub-fund may invest a substantial portion of its portfolio in cash or cash related instruments.

The sub-fund qualifies as an Article 9 product under SFDR (Sustainable Finance Disclosure Regulation). The sub-fund's investment policy has environmental, social and governance characteristics. The Investment Manager integrates these characteristics into its investment strategy to better manage risk and generate sustainable long-term returns. To identify investments for the sub-fund, the Investment Manager uses a proprietary SDG framework that is

part of the Investment Manager's model for sustainability analysis, CF THOR. For further information on CF THOR, including guidelines and methodology, please refer to this website [www.carnegiefonder.se/en/investment-philosophy/5-internal-analysis-cf-thor/](http://www.carnegiefonder.se/en/investment-philosophy/5-internal-analysis-cf-thor/).

**Benchmark:** The portfolio is actively managed on a discretionary basis without reference to a benchmark.

#### Intended retail investor

This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

#### Other information

**Depository:** Skandinaviska Enskilda Banken. AB (publ) – Luxembourg Branch

**Dividend income:** This class is a capitalisation class meaning that income is reinvested.

**Conversion right:** The investor has the right to convert his investment in units in one sub-fund for units in the same sub-fund or in another sub-fund. The investor can obtain information about how to convert in the prospectus of the fund.

**Segregation:** The assets and liabilities of a sub-fund are segregated pursuant to the law so that the commitments and liabilities of one sub-fund do not affect the other sub-funds.

**Additional information:** Additional information about the fund, copies of its prospectus, the latest annual and semi-annual report and the latest prices of units may be obtained free of charge from the management company or on [fundinfo.fundrock.com/CarnegieFP/](http://fundinfo.fundrock.com/CarnegieFP/). The prospectus and the periodic reports are prepared for the entire fund and are available in English. The management company may inform you about other languages in which these documents are available.

This sub-fund was launched in 2021 and this unit class in 2021.

The reference currency of the sub-fund is expressed in SEK. The currency of the unit class is expressed in NOK. For this unit class, the foreign-exchange risk of the unit currency is systematically hedged against the sub-fund's reference currency.

# WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

## Risk indicator

The summary risk indicator is a guide to the level of risk of this product com-

pared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Risk not captured by the risk indicator:

Liquidity risk: Low liquidity can make it difficult or impossible to buy or sell securities in reasonable time. Price may be lower or higher than expected.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

## Performance scenarios

Recommended holding period: 5 years Example investment: 100,000 NOK		If you exit after 1 year	If you exit after 5 years (recommended holding period)
<b>Scenarios</b>			
<b>Minimum</b>	<b>There is no minimum guaranteed return. You could lose some or all of your investment.</b>		
<b>Stress</b>	<b>What you might get back after costs</b>	77,180 NOK	77,420 NOK
	Average return each year	-22.8 %	-5.0 %
<b>Unfavourable</b>	<b>What you might get back after costs</b>	90,310 NOK	77,420 NOK
	Average return each year	-9.7 %	-5.0 %
<b>Moderate</b>	<b>What you might get back after costs</b>	102,200 NOK	113,530 NOK
	Average return each year	2.2 %	2.6 %
<b>Favourable</b>	<b>What you might get back after costs</b>	115,780 NOK	118,330 NOK
	Average return each year	15.8 %	3.4 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and of a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Unfavourable scenario: This type of scenario occurred for an investment between December 2021 and December 2022.

Moderate scenario: This type of scenario occurred for an investment between October 2014 and October 2019, by referring to a benchmark.

Favourable scenario: This type of scenario occurred for an investment between February 2016 and February 2021, by referring to a benchmark.

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if FundRock Management Company S.A. is unable to pay out?

The Management Company is responsible for administration and management of the sub-fund, and does not typically hold assets of the sub-fund (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). The Management Company, as the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the sub-fund or the depositary is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any, of this loss.

## WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 100,000 NOK is invested

	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	1,700 NOK	9,736 NOK
Annual cost impact (*)	1.7 %	1.7 % each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.3% before costs and 2.6% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
