WHAT IS THIS PRODUCT?

Type

Investment Company (SICAV), Luxembourg

Term

This sub-fund has no maturity date. However, the board of directors may decide to close the sub-fund under certain circumstances.

Objectives

The sub-fund aims to generate a long-term capital growth by investing in interest bearing instruments such as bonds and money market instruments traded on a regulated market.

The investments primarily focus on issuers in the Nordic region.

The sub-fund may also invest up to 10% of its assets in other investment funds.

The sub-fund can use derivatives to achieve the sub-fund's investment objective or to reduce risks.

The sub-fund qualifies as an Article 8 product under SFDR (Sustainable Finance Disclosure Regulation) since its investment policy promotes environment, social, and governance characteristics ("ESG Goals"). The Investment Manager integrates these characteristics into its investment strategy to generate sustainable long-term returns.

Further disclosures that describes the specific risks of investing in this sub-fund and investment strategies that are utilized by the Investment Manager to promote the sustainability characteristics are outlined in the prospectus or can be found on www.carnegiefonder.se/en/.

Benchmark: The portfolio is actively managed without reference to a benchmark.

Intended retail investor

This fund may be suitable for savers who plan to hold their investment for at least 3 years and who are aware that the money invested in the fund can both increase and decrease in value and that there is no guarantee that the entire capital invested can be returned. No special knowledge or experience in investment funds or financial markets is required to invest in the fund.

Other information

Depository: Skandinaviska Enskilda Banken. AB (publ) – Luxembourg Branch

Dividend income: This unit class is a capitalisation class meaning that income is reinvested.

Conversion right: The investor has the right to convert his investment in units in one sub-fund for units in the same sub-fund or in another sub-fund. The investor can obtain information about how to convert in the prospectus of the fund.

Segregation: The assets and liabilities of a sub-fund are segregated pursuant to the law so that the commitments and liabilities of one sub-fund do not affect the other sub-funds.

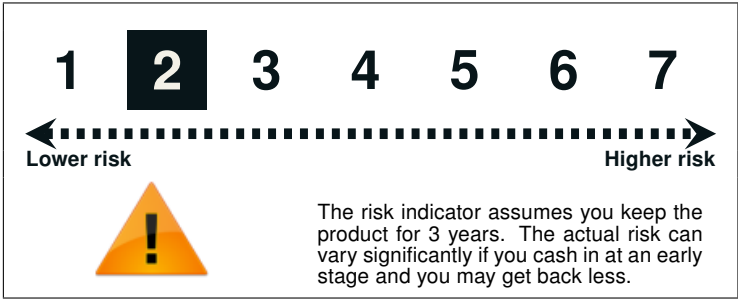

Additional information: Additional information about the fund, copies of its prospectus, the latest annual and semi-annual report and the latest prices of units may be obtained free of charge from the management company or on <https://fondsfinder.universal-investment.com>. The prospectus and the periodic reports are prepared for the entire fund and are available in English. The management company may inform you about other languages in which these documents are available.

This sub-fund was launched in 1990 and this unit class in 2015.

The currency of the sub-fund is SEK. The currency of the unit class is NOK. For this unit class, the foreign-exchange risk of the unit currency is systematically hedged against the sub-fund's currency.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Risk not captured by the risk indicator:
Liquidity risk: Low liquidity can make it difficult or impossible to buy or sell securities in reasonable time. Price may be lower or higher than expected.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

Recommended holding period: 3 years Example investment: 100,000 NOK		If you exit after 1 year	If you exit after 3 years (recommended holding period)
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	75,300 NOK	84,400 NOK
	Average return each year	-24.7 %	-5.5 %
Unfavourable	What you might get back after costs	91,000 NOK	97,000 NOK
	Average return each year	-9.0 %	-1.0 %
Moderate	What you might get back after costs	103,400 NOK	108,300 NOK
	Average return each year	3.4 %	2.7 %
Favourable	What you might get back after costs	114,900 NOK	115,100 NOK
	Average return each year	14.9 %	4.8 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Unfavourable scenario: This type of scenario occurred for an investment between March 2017 and March 2020.

Moderate scenario: This type of scenario occurred for an investment between June 2018 and June 2021.

Favourable scenario: This type of scenario occurred for an investment between February 2016 and February 2019.

The stress scenario shows what you might get back in extreme market circumstances.

WHAT HAPPENS IF Universal-Investment-Luxembourg S.A. IS UNABLE TO PAY OUT?

The failure of the manufacturer will have no direct impact on your payment, since statutory regulations require that, if the manufacturer becomes insolvent, the fund does not become part of the insolvency assets, but rather remains separate.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 100,000 NOK is invested

	If you exit after 1 year	If you exit after 3 years
Total costs	970 NOK	3,080 NOK
Annual cost impact (*)	1.0 %	1.0 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.4% before costs and 2.7% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
