WHAT IS THIS PRODUCT?

Type

The fund is a securities fund pursuant to the Swedish Investment Funds Act (2004:46).

Term

This fund has no maturity date. However, the board of directors may decide to close the fund under certain circumstances.

Objectives

The objective of Carnegie Småbolagsfond is to primarily generate a stable and positive return. The fund may invest its assets in transferable securities, money market instruments, fund units and accounts with credit institutions. The fund may also invest in derivatives in order to make the management of the fund more efficient.

The fund is an actively managed equity fund that invests principally in small and medium-sized companies listed on the Swedish stock market. The fund is able to place up to 20% in small and medium-sized companies listed on the other Nordic stock markets.

The fund is suitable as a long-term investment to take advantage of developments in the Swedish and Nordic equity markets with an actively managed portfolio.

Benchmark: The product compares its performance to Carnegie Small Cap Return as it is well aligned with the fund's investment policy. The product does not attempt to replicate this benchmark index and freely chooses the securities in which it invests. The deviation from this benchmark may be significant.

Intended investor

This fund may be suitable for investors who plan to hold their investment for at least 5 years and who are aware that the money invested in the fund can both increase and decrease in value and that there is no guarantee that the entire capital invested can be returned. No special knowledge or experience in investment funds or financial markets is required to invest in the fund.

Other information

Additional information: Additional information about the fund, the prospectus, the latest annual and semi-annual report and the latest prices of units may be obtained free of charge from the management company or on <https://www.carnegiefonder.se/en/>. The prospectus and the periodic reports are prepared for the entire fund and are available in English. The management company may inform you about other languages in which these documents are available.

This fund was launched in 2012 and this unit class in 2012.

The currency of the unit class is SEK.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

pared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

Risks not captured by the risk indicator:

Liquidity risk: Low liquidity can make it difficult or impossible to buy or sell securities in reasonable time. Price may be lower or higher than expected.

This product does not include any protection from future market performance so you could lose some or all of your investment.

The summary risk indicator is a guide to the level of risk of this product com-

WHAT HAPPENS IF CARNEGIE FONDER AB IS UNABLE TO PAY OUT?

If we are not able to pay you out what we owe you, you are not covered by any national compensation or guarantee scheme. To protect you, the assets are held with a separate company, the depository Skandinaviska Enskilda Banken AB (publ). Should we default, the investments are liquidated and the proceeds are distributed to the investors. In the worst case, however, you could lose your entire investment.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment. If the fund is part of another product, e.g. unit-linked insurance, there may be other costs for that product.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 100,000 SEK is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	2,000 SEK	15,682 SEK
Annual cost impact (*)	2.0 %	2.0 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.9% before costs and 10.9% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
