### WHAT IS THIS PRODUCT?

#### Type

The fund is a UCITS fund pursuant to the Swedish Investment Funds Act (2004:46).

#### Term

This fund has no maturity date. However, the board of directors may decide to close the fund under certain circumstances.

#### Objectives

The fund's objective is to provide its investors with a good long-term risk-adjusted return.

Carnegie Listed Private Equity is a globally focused equity fund that invests in listed companies whose activity involves influencing and developing businesses as active owners. This type of business is internationally referred to as "private equity".

The fund may invest its assets in Swedish or foreign transferable securities, fund units, money market instruments and in accounts with credit institutions as well as in derivative instruments as part of the fund's investment focus.

**Benchmark:** The product compares its performance with LPX50 Listed Private Equity Index Total Return, as it is in line with the fund's investment strategy. The product does not attempt to replicate this benchmark index and freely chooses which securities it invests in. The deviation from this benchmark index can be significant.

#### Intended investor

This fund may be suitable for investors who plan to hold their investment for

at least 5 years and who are aware that the money invested in the fund can both increase and decrease in value and that there is no guarantee that the entire capital invested can be returned. No special knowledge or experience in investment funds or financial markets is required to invest in the fund.

#### Other information

The management company may inform you about other languages in which these documents are available.

This fund was launched in 2009 and this unit class in 2019.

The currency of the unit class is SEK.

# WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

## Risk indicator

pared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

Risks not captured by the risk indicator:

Currency risk: Currency exposure can potentially lead to a loss due to fluctuation in foreign currency.

This product does not include any protection from future market performance so you could lose some or all of your investment.

The summary risk indicator is a guide to the level of risk of this product com-

## Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

**Recommended holding period: 5 years**

**Example investment: 100,000 SEK**

		If you exit after 1 year	If you exit after 5 years (recommended holding period)
<b>Scenarios</b>			
<b>Minimum</b>	<b>There is no minimum guaranteed return. You could lose some or all of your investment.</b>		
<b>Stress</b>	<b>What you might get back after costs</b>	13,200 SEK	25,500 SEK
	Average return each year	-86.8 %	-23.9 %
<b>Unfavourable</b>	<b>What you might get back after costs</b>	81,700 SEK	135,100 SEK
	Average return each year	-18.3 %	6.2 %
<b>Moderate</b>	<b>What you might get back after costs</b>	114,300 SEK	196,200 SEK
	Average return each year	14.3 %	14.4 %
<b>Favourable</b>	<b>What you might get back after costs</b>	161,300 SEK	254,400 SEK
	Average return each year	61.3 %	20.5 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and of a suitable reference class over the last 10 years. Markets could develop very differently in the future.

Unfavourable scenario: This type of scenario occurred for an investment between March 2015 and March 2020.

Moderate scenario: This type of scenario occurred for an investment between July 2017 and July 2022.

Favourable scenario: This type of scenario occurred for an investment between June 2016 and June 2021.

The stress scenario shows what you might get back in extreme market circumstances.

## WHAT HAPPENS IF CARNEGIE FONDER AB IS UNABLE TO PAY OUT?

If we are not able to pay you out what we owe you, you are not covered by any national compensation or guarantee scheme. To protect you, the assets are held with a separate company, the depository Skandinaviska Enskilda Banken AB (publ). Should we default, the investments are liquidated and the proceeds are distributed to the investors. In the worst case, however, you could lose your entire investment.

## WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment. If the fund is part of another product, e.g. unit-linked insurance, there may be other costs for that product.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 100,000 SEK is invested

	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	880 SEK	7,653 SEK
Annual cost impact (*)	0.9 %	0.9 % each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 15.3% before costs and 14.4% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
