Competent Authority:

Finansinspektionen is responsible for supervising the manufacturer in relation to this Key Information Document.

Date of production

13/05/2024

WHAT IS THIS PRODUCT?

Type

The fund is a UCITS fund pursuant to the Swedish Investment Funds Act (2004:46).

Term

This fund has no maturity date. However, the board of directors may decide to close the fund under certain circumstances.

Objectives

The fund invests mainly in interest-bearing securities issued by governments, municipalities or credit institutions with good liquidity and high creditworthiness. The debt securities in which the fund invests must have a credit rating of at least A- or equivalent. The fund's investments must have a Swedish connection through the financial instrument being denominated in Swedish kronor. The fund's investments must have an average fixed interest term in the range 0-10 years.

The objective is to achieve value growth over time that exceeds the fund's benchmark index with a good spread of risk. The fund's investment strategy is based on analysis in three areas: macroeconomics, valuation and sentiment. Active risk exposure is achieved by taking positions in duration, the interest rate curve, credit exposure and securities selection.

The fund may invest more than 35% of its assets in bonds and other debt securities issued by or guaranteed by the Swedish government or by Swedish municipalities. The fund uses derivative instruments in its management to manage risks and as part of the investment strategy to achieve the investment objective. The fund applies a model in which sustainability factors are integrated into the credit analysis. The fund's focus is to select companies that we believe have well-thought-out governance and risk management in the area of sustainability. The fund deselect issuers with specific of difficult-to-assess environmental, social or ethical risks linked to factors such as the company's ongoing operations, products or services or geographical presence. Please refer to the prospectus for more information about sustainability criteria.

Benchmark: The product compares its performance against the Nasdaq OMRX Treasury Bond Index. The product does not try to replicate this benchmark and freely selects the securities that it invests in. The deviation with this benchmark can be significant.

Intended investor

This fund may be suitable for investors who plan to hold their investment for at least 3 years and who are aware that the money invested in the fund can both increase and decrease in value and that there is no guarantee that the entire capital invested can be returned. No special knowledge or experience in investment funds or financial markets is required to invest in the fund.

Other information

Depository: Skandinaviska Enskilda Banken AB (publ)

Dividend income: This unit class is a capitalisation class meaning that income is reinvested. The unit class pays no dividends.

Conversion right: The investor has the right to convert his investment in units for units in the same fund. The investor can obtain information about how to convert in the prospectus of the fund.

Additional information: Additional information about the fund, the prospectus, the latest annual and semi-annual report and the latest prices of units may be obtained free of charge from the management company or on <https://www.carnegiefonder.se/en/>. The prospectus and the periodic reports are prepared for the entire fund and are available in English. The management company may inform you about other languages in which these documents are available.

This fund was launched in 1994 and this unit class in 1994.

The currency of the unit class is SEK.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Risks not captured by the risk indicator:

Liquidity risk: Low liquidity can make it difficult or impossible to buy or sell securities in reasonable time. Price may be lower or higher than expected.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

Recommended holding period: 3 years

Example investment: 100,000 SEK

		If you exit after 1 year	If you exit after 3 years (recommended holding period)
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	83,800 SEK	82,800 SEK
	Average return each year	-16.2 %	-6.1 %
Unfavourable	What you might get back after costs	89,200 SEK	85,700 SEK
	Average return each year	-10.8 %	-5.0 %
Moderate	What you might get back after costs	100,700 SEK	103,300 SEK
	Average return each year	0.7 %	1.1 %
Favourable	What you might get back after costs	111,100 SEK	111,800 SEK
	Average return each year	11.1 %	3.8 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Unfavourable scenario: This type of scenario occurred for an investment between February 2020 and February 2023.

Moderate scenario: This type of scenario occurred for an investment between

February 2018 and February 2021.

Favourable scenario: This type of scenario occurred for an investment between April 2014 and April 2017.

The stress scenario shows what you might get back in extreme market circumstances.

WHAT HAPPENS IF CARNEGIE FONDER AB IS UNABLE TO PAY OUT?

If we are not able to pay you out what we owe you, you are not covered by any national compensation or guarantee scheme. To protect you, the assets are held with a separate company, the depositary Skandinaviska Enskilda Banken AB (publ). Should we default, the investments are liquidated and the proceeds are distributed to the investors. In the worst case, however, you could lose your entire investment.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment. If the fund is part of another product, e.g. unit-linked insurance, there may be other costs for that product.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 100,000 SEK is invested

	If you exit after 1 year	If you exit after 3 years
Total costs	590 SEK	1,820 SEK
Annual cost impact (*)	0.6 %	0.6 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.7% before costs and 1.1% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs (amounts in SEK are based on an investment of 100,000 SEK)

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee for this product, but the person selling you the product may do so.	0 SEK
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 SEK
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.5% of the value of your investment per year. This is an estimate based on actual costs over the last year.	500 SEK
Transaction costs	0.1% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	90 SEK
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 SEK

The conversion of part or all of the units is free of charge.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 3 years

You should be prepared to stay invested for 3 years. However, you can redeem your investment without penalty at any time during this time, or hold the investment longer. The fund is traded daily. Deposits into and withdrawals from the fund can normally be made on any business day.

HOW CAN I COMPLAIN?

If you have any complaints about the product, the conduct of the manufacturer or the person that advised on or sold this product, you can use different communication channels: by e-mail to spara@carnegiefonder.se, by letter to Carnegie Fonder AB, Box 7828, SE-103 97 Stockholm, by phone calling the number +46 8-12 15 50 00.

In all cases, the complainant must clearly indicate his/her contact details (name, address, phone number or email address) and provide a brief explanation of the claim. More information is available on our website <https://www.carnegiefonder.se/en/contact/>.

OTHER RELEVANT INFORMATION

Full information about the fund is available in the fund's prospectus, which is available on the fund company's website <https://www.carnegiefonder.se/en/> together with, but not limited to, the current version of this key information document, the fund's annual report and semi-annual report and information on charges for previous periods.
